#### BRANDON RANDOLPH MICHAEL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Mr. Speaker, I recently got a letter from a grieving family in Florida. Their young 21-year-old son was killed 3 years ago in a senseless homicide by an illegal. The family is still seeking justice, however. This is their son's story.

On August 15, 2007, Brandon Randolph Michael was on the way to his lunch break. This is Brandon's photograph right here. He was driving to the credit union to cash his payroll check. His vehicle was struck by a car driven by a twice-deported illegal named Mario Tellez. Brandon's car flipped over several times and landed on its hood. Brandon was thrown into a ditch.

The illegal driver, Mario Tellez, got out of his vehicle and calmly sat on the curb. He did nothing to help Brandon.

He did not call for aid. He did nothing but watch Brandon struggle when he took his last breaths.

Tellez refused to admit he was driving the vehicle, and Brandon's family had to go through a torturous, lengthy trial.

Brandon's family found out that Tellez had been in this country illegally for 7 years. He was working and sending his money back to Mexico, even after having already been deported two times.

It took a jury only 20 minutes to find him guilty of driving without a license and causing the death of another person, that being Brandon. The defendant was sentenced to only 2 years in the penitentiary, 2 years for taking the life of another individual.

Tellez has now served the 2 years for murdering Brandon Michael, and, upon release, he was deported yet again. But here is the rest of the story.

Tellez's friend, a Richard Curtis, admitted during the trial that he harbored the illegal fugitive for years and hid him out, and Curtis was never prosecuted.

It was Richard Curtis' automobile that Mario Tellez was driving when he killed Brandon Michael. Curtis worked for the Federal Government. And, get this. He worked for the IRS. Don't the laws apply to Federal bureaucrats as well as other people in this country?

So the family asked the Florida State Attorney's Office, ICE, State, and local law enforcement officers to enforce the law. The family is asking them to charge Richard Curtis with harboring, aiding, and abetting an illegal fugitive in this country.

But no one has prosecuted this apparent lawbreaker. And why not? No one seems to be talking. Brandon's family deserves some answers.

Brandon's parents, Mr. and Mrs. Robert Michael, wanted me to know how precious their son Brandon was to them.

□ 1800

Here is what they said about him. They said he was a fun person to be around. He loved life, he celebrated with people, and he was seldom ever sad. He made others happy. He was looking forward to getting married and starting a family. And he was a Dallas Cowboys fan. He played the keyboard. And he played several different sports growing up, from T-ball as a small child to football in high school. He grew up with a loving middle-class family that raised him to respect people and respect the law.

Brandon loved giving to those that had less than him. He helped feed the hungry. He often called his friends and asked them for blankets, coats and shoes so he could give them away to the needy in his area. While in middle school, Brandon and his sister were pages for the local city council meetings. He worked hard for the car that he was driving on that dreadful day he was killed by a person illegally in this country.

Brandon loved animals and had just about every type during his childhood. He wanted to be a veterinarian.

This is a real American family, suffering real consequences because of lax immigration and border enforcement laws in this country. Brandon's life was cut short by a twice-deported illegal who should not have been in the country in the first place.

Brandon's family is a very close-knit group. They told me they have worked hard to raise children that loved the Lord and loved others and loved this country.

The family said others things. The father, Richard Michael, well, first of all, he defended this country for 20 years in the military, and the family feels as though our country has turned a deaf ear on their plight and their situation. Our government officials that they have trusted seem to have turned their backs on this case and Brandon's death.

The time to enforce the laws in this country is now, and they asked me how many American children such as their precious son have to be killed at the hands of illegals before our government gets serious about enforcing the laws of the land? They said, "We cannot afford to ignore this enormous problem any longer. We don't want another family to endure what we have been through and are still going through."

Mr. Speaker, Brandon Randolph Michael is worth the fight to get it right in this country, to enforce the laws that we have, to prosecute the guilty, to deport criminal aliens, and to secure the borders, because it is a national security issue to protect the lives of people like this.

And that's just the way it is.

#### RECOGNIZING NOVEMBER AS AMERICAN DIABETES MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, every minute, three people are diagnosed with diabetes. Every day, almost 200 people undergo an amputation because of the disease. Fifty people go blind and one hundred thirty people enter end-stage kidney disease programs. If current trends continue, one in three children will face a future with diabetes. That is one of the most frightening statistics I have read in a long time.

The disease is at epidemic proportions, with nearly 24 million children and adults living with the disease and another 57 million Americans with prediabetic conditions, according to the American Diabetes Association.

So what is the cost of this epidemic? Almost one in every five health care dollars is attributed to caring for someone with diabetes. Just in my district in Pennsylvania, a 2007 estimate says it cost more than \$323 million. Nationwide the price tag is \$218 billion and climbing, but that figure includes
